

DYR UI Requirements

2018.06.19

Author: Isabella Nadler (UX/UI/Design Strategist)

Product Manager: Alan Hurt Jr.

User Tasks

- 1.) User wants to browse for dogs, favorite them, and review them
- 2.) User wants to inquire about a dog

Pages to Design

Homepage
Pet Listings Page
Pet Listings Quickview
Profile Page
Log in Page
Register Page
Favorites Page
Thank You Modal

High Level Requirements

A homepage that engages users and allows them to easily navigate to their desired location
A pet listings page that allows users to easily navigate and browse
A pet listings quickview that provides basic information about the listed pet
A profile page that provides a concise and clear overview of the pet
A log in page that is easy to understand
A registration page that is simple, easy, and doesn't distract from the user's task
A favorites page that provides a comprehensive overview of the favorited pets
A thank you modal gives users a simple confirmation of their inquiry
