

UI Requirements

2018.07.18

Author: Isabella Nadler (UX/UI Designer)

Product manager: Alan Hurt Jr.

User Tasks

1. Your friend is going through a hard time and you want him to know you're thinking of him. You know he doesn't use Spotify though. From home screen, navigate to a song you like and want to send to him as a gift.
2. From home screen, navigate to one of your friend's playlists Spotify is recommending. Star/Upvote the playlist.

Pages to Include

Home (featuring suggested friend's playlists)
Playlist (with star/favorite capabilities)
Share options (with Send as Gift feature included)
Gift Message
Confirmation and share code modal
Social Options (with 'Gifts' included)
Gifts history and details
Library
Songs
Music Player Full Screen
Settings

High Level Requirements

Clear and intuitive navigation to gift sending feature
Clear access to friend's Suggested Playlists
Visibility of up-voting playlists
Follow Spotify's existing design patterns as closely as possible
Integrate new features as seamlessly into Spotify's design as possible

Detailed Requirements

Home Screen

- "See what your friends have been liking" playlists featured directly under "Made For Isabella"
- Scrolls side-to-side upon swipe

Playlists

- Section to up-vote playlists (to give more credibility, show up on more user's feeds)

Share options

- to include “send as gift”
- include a “share” icon on song’s music player screen in addition to three vertical dots

Gift Message

- Option to include a message
- Option to connect with your contacts to send directly from Spotify
- Shows Screenshot of song (what receiver will see)
- Confirm button
- small blurb about how your Spotify account will be charged

Confirmation and share code modal

- confirmation feedback and code to share (click to copy)

Social Options (with ‘Gifts’ included)

- include ‘Gifts’ in the social section of Spotify settings
- connect with user’s contacts switch

Gifts history and details

- Show gift sending history
- small blurb about what it was billed to

Library
